

TCSD Collection System Project

Phase I Project Summary

Due to aging infrastructure, TCSD is replacing sections of the sewer system between Tuolumne Road and Bay Avenue under a state grant program. The construction is anticipated to start August 2022 and last up to one year. A map of the project area is shown on the other side of this flyer.

Residents may experience the following during the construction period:

- Noise
- Lane Closures
- Road and Alley Closures
- Temporary Loss of Water and/or Sewer Service
- Temporary "No Parking Zones"
- Temporary Loss of Driveway Access

All impacts to residents will be kept to a minimum. We thank you in advance for your patience and cooperation during these essential works. If you have any special need for road access during construction, please contact us.

State Funding Disclosure

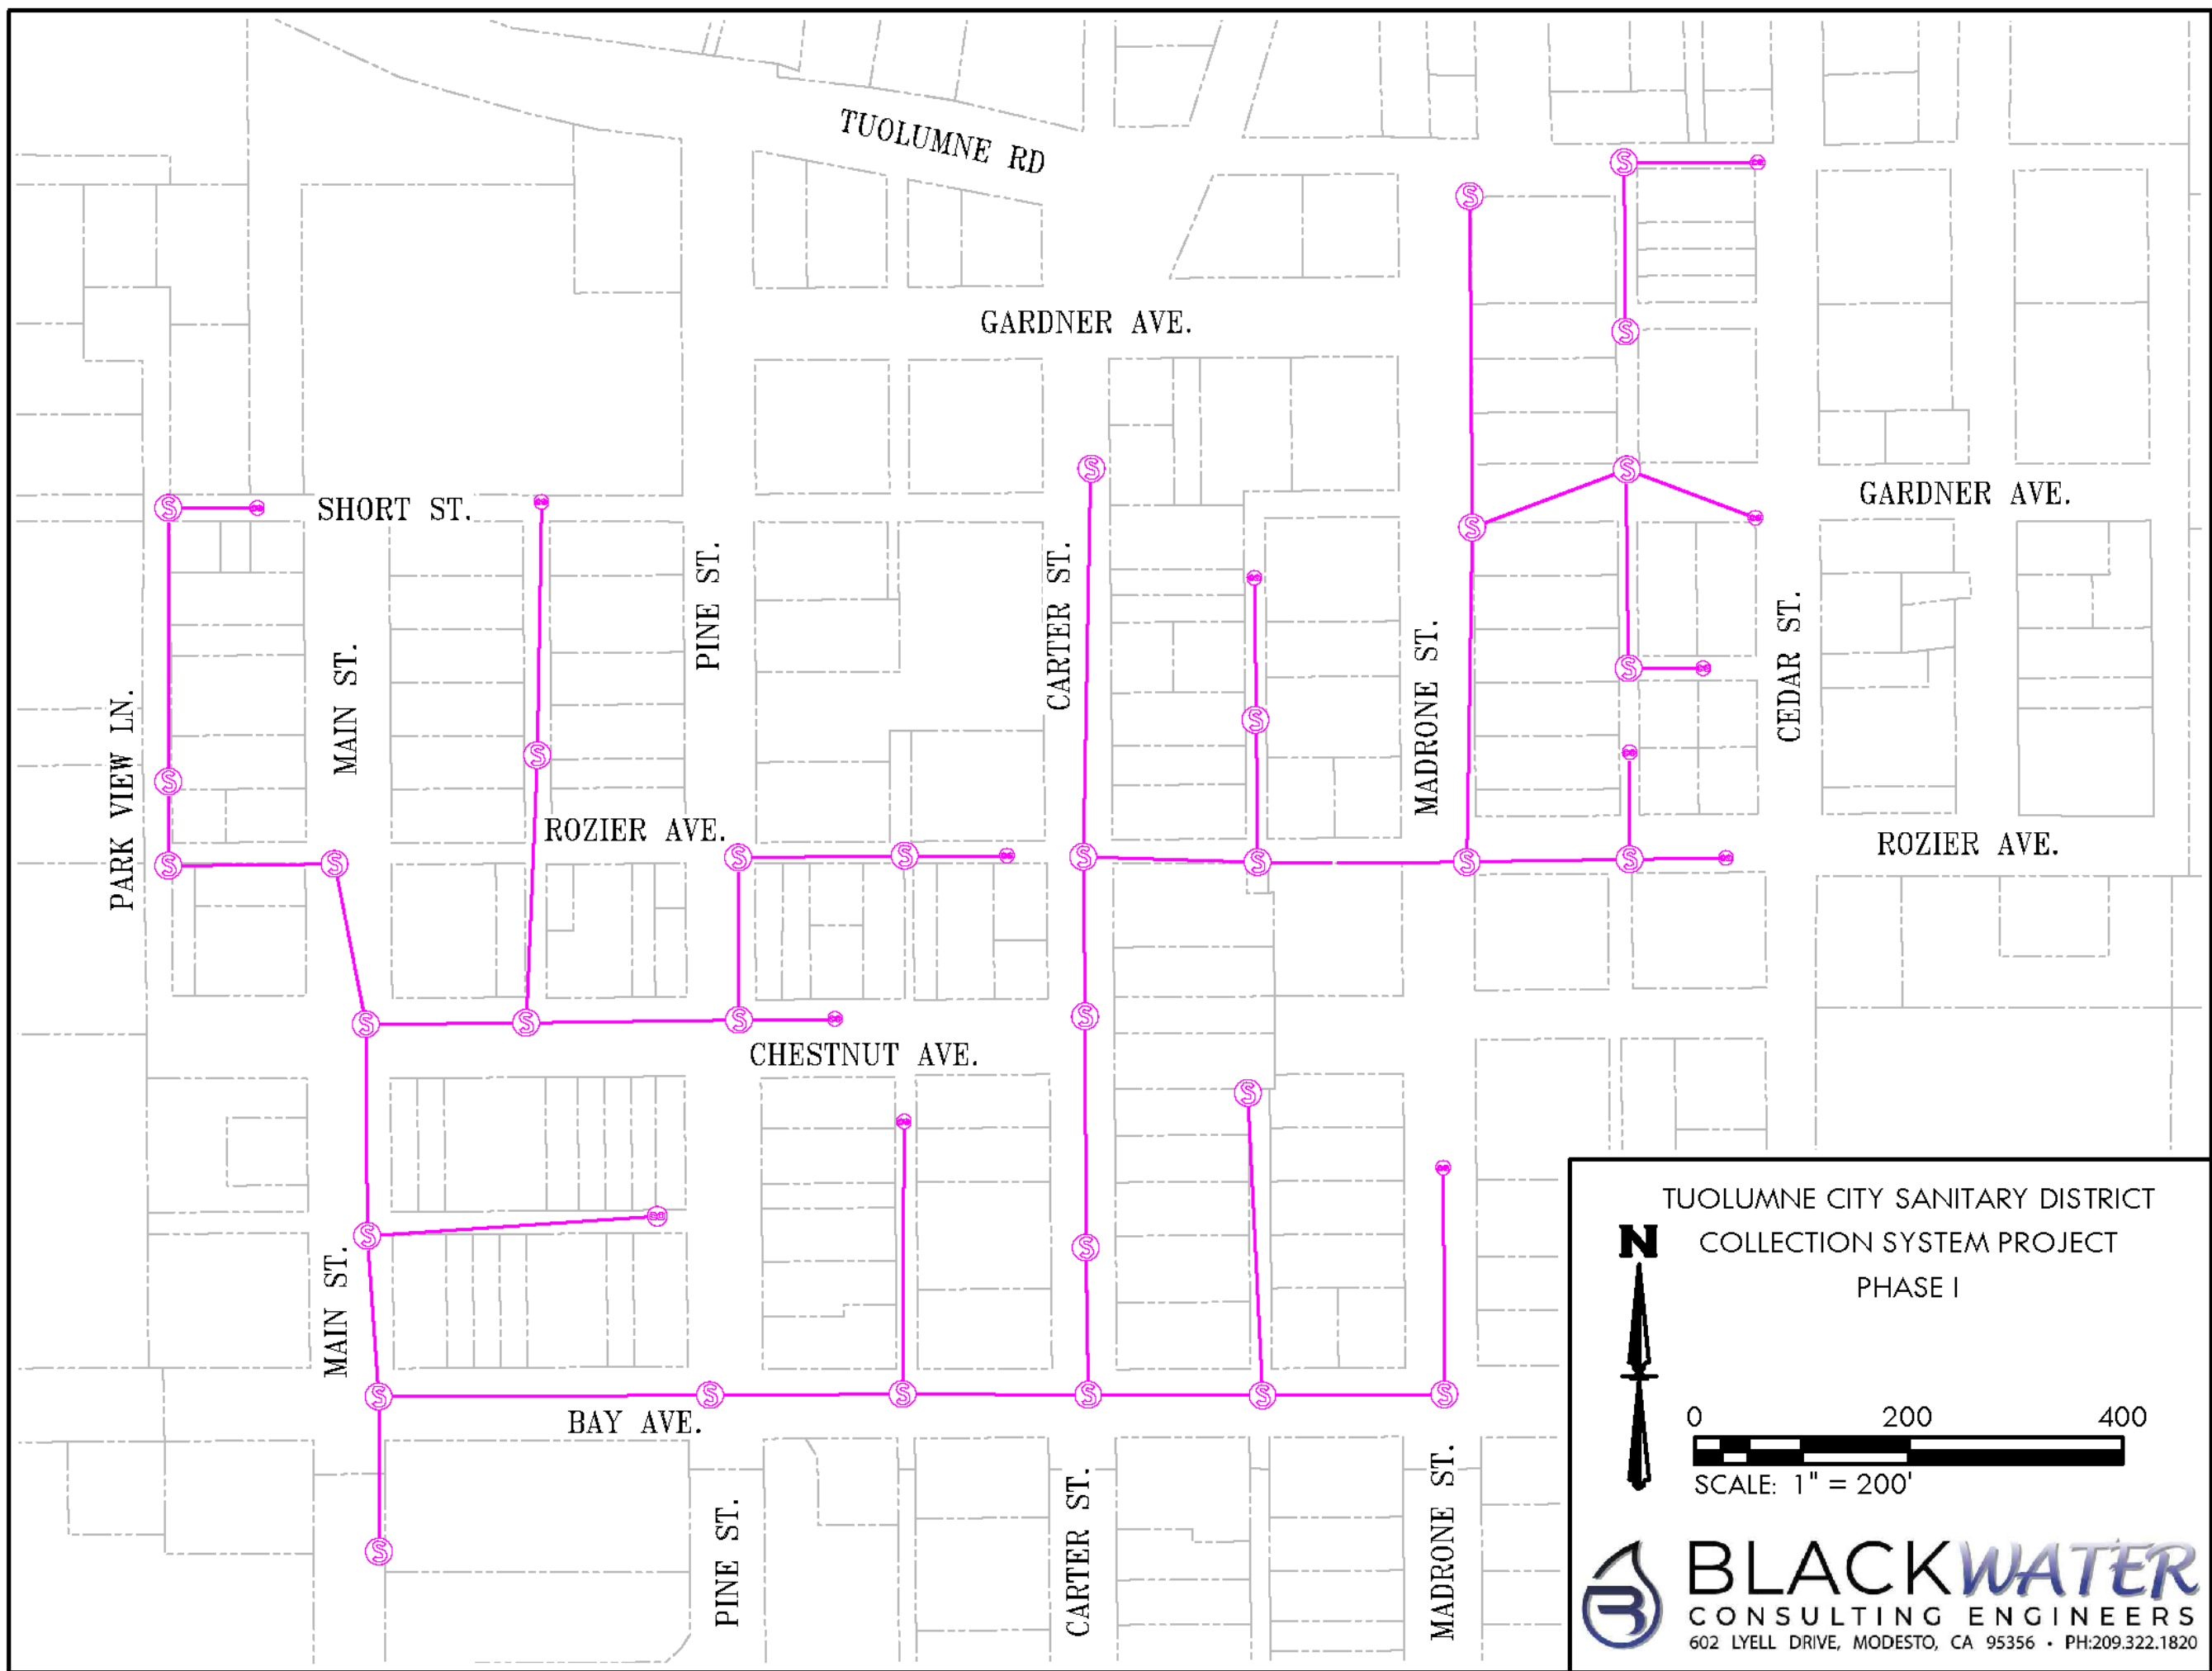

Funding for this project has been provided in full or in part through an agreement with the State Water Resources Control Board. California's Clean Water State Revolving Fund is capitalized through a variety of funding sources, including grants from the United States Environmental Protection Agency and state bond proceeds. The contents of this document do not necessarily reflect the views and policies of the foregoing, nor does mention of trade names or commercial products constitute endorsement or recommendation for use.
