Agenda Item: Consent

To: Board of Directors
From: Dave Andres, General Manager
Subject: Proposed SRF Applications
Date: February 28, 2024

Background: District Staff is completing the first phase of funding under the State Revolving Fund (SRF) program. The District received \$8,000,000 in funding beginning in 2017 fiscal year that provided both *Planning Grants* and *Construction Grants* for the Wastewater Treatment Plant (WWTP) and the Wastewater Collection System (WWCS). The WWTP project is coming up on its one-year anniversary as the warranty period is about to expire, while construction of the WWCS project was completed by the end of November. While all of the construction work has been completed the District still needs to be reimbursed for outstanding costs from the state and submit final reports required under the grant. The District has received up to an additional \$2,211,010 in Phase 2 funding for the WWTP project. Staff would like to discuss with your Board potential grant applications for potential future projects.

Discussion: The District is currently eligible for 100% grant funding under the State Revolving Fund (SRF) Program administered by the State Water Quality Control Board (SWQCB). This program offers two types of grants: planning grants and construction grants. The District is not limited on the amount of planning grant funding due to a change in regulations that previously limited the amount to \$500,000. Planning grants are utilized when the project or projects need to be designed and undergo an environmental assessment prior to being finalized. Construction grants are used when the environmental and permitting is complete and the plans are at least 70% designed and the project is close to bidding.

District staff has met and outlined potential projects for future funding. Staff has separated the projects into four primary categories based on whether the project is in the collection system or at the treatment plant and whether the project is slated for a construction grant or a planning grant. In addition, the District has been notified that it is eligible for approximately \$2.2 million in "special funding" at the WWTP. A summary of the proposed projects is provided in Table 1 below.

Table 1. Proposed Estimated Project Funding

As indicated in a previous staff report from our September 6, 2023 and December 6, 2023 Board Meetings, staff is bringing this information back to your Board for approval of the

attached resolutions required under the SRF program. Staff anticipates submitting these grant applications in the next 30 days.

Fiscal Impact: The District is currently eligible for 100% State grant funding under the SRF program. Total proposed funding for the WWTP Phase III and WWCS Phase II construction projects is estimated to exceed \$15,000,000.

Attachment(s): Resolutions 2024-02 and 2024-03

Recommendation: Approve attached resolutions.

Recommended Motion: I move to approve the attached resolutions 2024-02 and 2024-03.
