

## **NOTICE OF PUBLIC HEARING**

### **TCSD WASTEWATER TREATMENT PLANT IMPROVEMENT PROJECT FINAL DESIGN**

**Notice is hereby given that the Tuolumne City Sanitary District (TCSD) will conduct a public hearing at 2 pm on Wednesday, May 5, 2021, for the purpose of considering the following:**

The Tuolumne City Sanitary District began the process of applying for grant funding with the State Department of Water Resources State Revolving Fund (SRF) Program on two construction projects upgrades in early 2016. The District was awarded two separate SRF construction grant agreements totaling \$8,000,000, the WWTP grant at \$ 2,000,000 and the Collection System grant at \$ 6,000,000. The SRF Grant provides 100% state funding with no local match required due to the status of Tuolumne City as a Severely Disadvantaged Community (SDAC). The WWTP Improvement Construction Project is at the final design stage and is ready for the bid process.

Wastewater Treatment Plant Improvements will include construction of the following:

- Storage Lagoon Relining
- Sludge Lagoon Aerator
- RAS/WAS Pump Station
- Electrical and SCADA Improvements

Alternate items may include construction of the following:

- Driveway Concrete Paving
- Aeration Basin Concrete Paving
- Pump House Concrete Paving
- Effluent Flow Meter and Line Relocation

The District would encourage anyone interested in the final WWTP design to attend the public meeting via Zoom Meeting or download the project description from the District's website at [tcsanitarydistrict.com](http://tcsanitarydistrict.com) under the "Notices" section. Please feel free to contact the District office at (209) 928-3517 or by email at [tscd@frontiernet.net](mailto:tscd@frontiernet.net) for further assistance.
