Agenda Item: 6 (b)

The GM is currently working with staff and consultants on a number of activities. These activities include the following:

- **WWTP Phase II Improvements**

Delays caused by weather, pipe material ordering, and bypass plan approval, but contractor is onsite and continuing work.

- **SRF Staff Communications**

Staff continues to work with SRF staff to acquire all the required approvals and documents needed to process payments for the WWTP Phase II Improvement project and also to acquire the time extension for completion of the projects.

- **SCADA Improvement Project**

Per direction from last month's Board meeting, staff discussed the SCADA Improvements project timeline with Telstar. Telstar agreed to complete the SCADA system upgrade by the March 31, 2025 deadline. They will also attempt to work on the added deficiency list (Phase II) during this time period also. If we get the time extension from SRF we will then follow the normal schedule.
